Data Sources:

2021, 2022, 2023 Western Sugar South OVT Trials - 3-Yr data. | *2-Yr data

- » Aphanomyces, Cercospora, Fusarium, & Rhizoctonia ratings taken from OVT Ratings.
- » Ratings are made based on research and observations which may or may not relate to your growing conditions.

Actual results may vary. Crop yield and quality are caused by many conditions beyond the control of SESVanderHave, and these statements are not a guarantee of performance, nor do they constitute a warranty of fitness for a particular purpose, as SESVanderHave cannot warrant quality of seed or yield of plants from seed.
